

いずれかを選択

The screenshot shows the PMDA homepage. At the top, there is a navigation bar with the PMDA logo and name in Japanese and English. Below this, there are several buttons for navigation. A red circle highlights a group of buttons: '添付文書等検索' (Search for attached documents), '医療用医薬品' (Medical drugs), '医療機器' (Medical devices), '再生医療等製品' (Regenerative medical products), '一般用・要指導医薬品' (General use/requirement for guidance drugs), and '体外診断用医薬品' (In vitro diagnostic drugs). A red arrow points from the text 'いずれかを選択' to this group of buttons. Other elements include a search bar, language selection (Japanese/English), and a site map button.

(例) 医療用医薬品を選択した場合

The screenshot shows the PMDA search page for medical drugs. The page title is '医療用医薬品 情報検索' (Medical drugs information search). There is a search bar and a '検索' (Search) button. A red circle highlights a link labeled '情報検索機能の使い方' (How to use the information search function). A red box to the right of this link contains the text: 「検索機能の使い方」はここ (資料1参照) (How to use the search function is here (see material 1)). Below the search bar, there are two main search sections: '医薬品の添付文書等を調べる' (Search for attached documents of drugs) and '特定の文書の記載内容から調べる' (Search from the content of specific documents). The first section has a search input field and radio buttons for search criteria: '一般名及び販売名' (Selected), '一般名のみ', '販売名のみ', '部分一致', and '前方一致'. The second section has a search input field and a note: 「特定の文書の記載内容から調べる」では、添付文書以外の特定の文書の全文検索又は関連する日付で検索ができます (左側の「医薬品の添付文書等を調べる」とは検索方法が異なります)。(When searching from the content of specific documents, you can search for the full text of specific documents other than attached documents or search by related dates. (The search method is different from the search for attached documents of drugs on the left side).)
